

LA COUNTY PARKS & RECREATION PRESENTS

# NATURAL AREAS

Eaton Canyon Nature Center

## Family Nature Walk

Guided Nature Walks in Eaton Canyon Natural Area are opportunities for the entire family, groups or individuals to experience a walk through the natural area park.

Our LA County Parks Walk guides are trained, volunteer docent naturalists that lead the way while participants can enjoy their walk in groups while practicing physical distancing and other current COVID-19 safety guidelines.

Walks promote positive connections with nature and the world around us, conservation and climate education, awareness of natural and cultural history, physical and mental well-being, and socialization.

Participants meet at Nature Center patio. No dogs are allowed at this guided walk.
